Dentists Near Me

Near Me Technologies has launched Dentists Near Me in an effort to make it easier for patients to find a dentist nearby. For dentists, there is no other platform on the internet that can offer you this much. Dentists Near Me lets dental offices know how many potential patients visit their Dentists Near Me profile each day, month, etc. Clinicians can even publish their academic work on their platform as well.

Total Connect Now Dental Management Suite

Unified Office announces that they are extending their communications and analytics service offerings to the dental industry with their Total Connect Now Dental Management Suite (TCNDMS). Unified Office enables dental practices to easily create and modify their own unique workflow choreography and to create their own virtual office communications environment, in addition to providing them with performance analytics and automated appointment confirmation and scheduling. TCNDMS also provides an easy-to-use, centralized administration solution for their communications systems across all of their offices, which can be accessed anywhere through any device.
